EDUCATION

Chitkara University

Sep. 2024 – Jun 2026

Bachelor of Engineering in Computer Science and Engineering

ACHIEVEMENTS

National Finalist HackIndia 2024 Edition

October 2024

Secured a finalist position at the prestigious HackIndia national-level competition, showcasing a cutting-edge decentralized web-3 chat app. Emerged as one of the top teams in India, demonstrating innovation and technical excellence.

The Hackathon: Combating Hate Speech Online with AI

April 2024

Secured finalist position in the prestigious Hate Speech Detection Hackathon with Israel at the national level, demonstrated idea for Hate Speech Detection system.

PROJECTS

World Currency Exchange [Source Code](#) | *React.js, Node.js, Currency Layer API*

August 2024

- Enhanced a currency converter application using Vite React, providing real-time currency exchange rate conversion.
- Incorporated the Currency Layer API to ensure accurate financial data retrieval and processing.
- Focused on optimizing the application for speed and efficiency, delivering a smooth user experience.

Image Generator [Source Code](#) | *Node.js, React.js, Mongodb, DALL-E 3 API, Cloudinary*

July 2024

- Created an image detection application leveraging the DALL-E 3 API from OpenAI, enabling users to generate and identify images based on text input.
- Integrated MongoDB for efficient data storage and management, and Cloudinary for image storage and delivery.
- Implemented seamless API integration, ensuring fast and reliable image processing and user interaction.

HerbalDOKO [Source Code](#) | *XML, Java, Firebase*

May 2024

- Collaborated on the development of “Herbal Doko,” an android application for buying, managing and distributing herbal products.
- Contributed to the frontend using XML and developed backend services with Java, ensuring smooth user interface and data handling.
- Blended Firebase for real-time database management, enhancing the application’s reliability and scalability.

SKILLS

Languages: C/C++(Intermediate), Java(Intermediate), JavaScript(Intermediate)

Database: MongoDB, Firebase

Developer Tools: VS Code, IntelliJ IDEA, Google Colab

Design and Productivity Tools: : : Unity, Canva, Power BI, MS Office

Technologies/Frameworks: Linux, express.js, chart.js
